OBJECTIVE

A B-Tech graduate with a passion towards computer science and programming. Always energetic and eager to learn new skills. Motivated towards learning new skills and applying them to solve real-world problems. Looking forward to working in a challenging environment with a high growth trajectory. My core competencies include MERN Stack Developer, Core java, Data Structures and Algorithms

EDUCATION

Lovely Professional University , Phagwara
Bachelor of Technology (B. Tech), Computer Science and Engineering(CSE)
May, 2018   CGPA: 7.21/10.00

Saraswati Vidya Mandir, Sultanpur (U.P.)
Class XII (Senior Secondary Examination), CBSE
July 2013   Aggregate 64.2%

Saraswati Vidya Mandir, Sultanpur (U.P.)
Class X (Secondary Examination), CBSE
July 2011   CGPA: 8.4/10

TECHNICAL SKILLS

Languages : Java,JavaScript,
Database : MySQL, MongoDb
Tools/Framework : Express.js(Node.js), React.js,Redux
Familiar : HTML, CSS,
General : Data Structures, Algorithm,

EXPERIENCE

Internship : Full Stack Developer At MoreYeahs   **june 20 -continue..**
working on making Api's using node.js as well as made lot of responsive webpages using html css and angular

Coding Ninja Career Camp Trainee   **Oct 19 - continue..**
Solved 250+ Data Structure Question ,Learn MERN stack and made 10-12 projects , which includes responsive web design,node.js Api's , React.js project,javascript games etc which helps me to strong my concept

PROJECTS

CSV file Operation

Here in this project I can add csv file upload using multer. Store it in database,can show the uploaded file in view section . We can select file in view and apply operation like sort ,search from frontend.
- **Technology/Tools:** express.js(node.js),javascript,ejs, mongoDB.
- **Link :** https://github.com/23ashutosh3/csv-file

Hospital Api with mocha-chai testing

This project based on node js and mongodb, Doctor can register and login.and authenticate doctor can register patient and make the reports of patient .reports schema contains all the record of the patient previous report also.patient can get all the reports.
- **Technology/Tools:** express.js(Node.js),mongoDB ,Mocha-chai
- **Link :** https://github.com/23ashutosh3/hospital-api

Cart App using react

This project is based on react.js ,Simple cart app ,which include diffrent products,having price ,and quantity on it. we can simply increase ,decrease the quantity,add or remove the products,etc.

- **Technology/Tools:** react.js ,HTML ,CSS
- **Link :** https://github.com/23ashutosh3/react-cart-item

Calculator using javaScript

basic Calculator perform simple airthmatic calculation HTML CSS and JavaScript is used.This project helps to learn how to write javaScript Code and apply logic

- **Technology/Tools:** javaScript ,Html ,CSS
